You will smile to see the colorful display of summer flowers on your desktop. Lakes of Switzerland Screensaver Description: Lakes of Switzerland. 3D HD photos from the crystal clear lakes of Switzerland Friday, April 2, 2013 On 9th August 2006, an unprecedented thunderstorm system dropped 6 inches of rain on the town of Osoyoos, British Columbia. The resulting surge of water in the canyon of the Chequamegon river washed away the terraces of the Osoyoos Indian reserve and sent the waters of the river into the massive Chequamegon gorge. That day the Chequamegon river broke its banks and flowed over its banks nearly 50 miles from its normal course. At a force of 10 million cubic feet per second, the Chequamegon river ran over the hills about half a mile higher than the normal river and sent an estimated 4,000,000 cubic feet of water down the valley. Due to the swift speed of the water, the ground became a geological sinkhole. The river fell over to an average flow of two and a half miles an hour, leaving a channel nearly a third of a mile across and 16 meters deep. Residential homes that were not built on a hill on a higher area were washed away, and hills washed away that were once of a residential. The gates that divide the Chequamegon river valley had been able to stop the fury of the raging waters. However, the roads, homes, fences and many trees were carried out of the valley by the surging waters. Property damage was estimated to be in the billions of dollars. THE HISTORY OF WIND-FLOWER Wind-flower was born on 9th of August 2006 in Osoyoos, British Columbia, Canada. It is a resurrection of a wonderful photo shot by R
