AAA “The new fantasy RPG Final Fantasy A Realm Reborn hits the shelves, and it's arriving with a bang.” Gamer.ne.jp “Starts off like a regular Final Fantasy game, but quickly shows it's true potential in giving you a little more.” Gameolio.com “If you've never played a Final Fantasy RPG before, this is a good way to get a feel for the series.” GameSpew.com “Final Fantasy A Realm Reborn has all the hallmarks you'd expect from a Final Fantasy game, and fans of this series will probably enjoy it a lot. If you're a fan of RPGs and are on the fence about whether to buy it, I'd say definitely get it.” GameSpot “Final Fantasy A Realm Reborn will be considered the true successor to the Final Fantasy series, which means that you can consider yourself warned that you'll be in for a wild ride from start to finish.” U.C.Blog “If you've played Final Fantasy games for any length of time, you'll feel right at home in this one. It's not nearly as complicated as some other games in the series. It has its fair share of

headaches, but they're well-justified and made in the context of one of the most beautiful games on the system."

GameMagnet "If you're not a huge Final Fantasy fan but still want to play Final Fantasy, this game is for you. I can tell you after playing this for a day that it is a top notch final fantasy game that will keep you playing and immersed."

GameZep "This game is good enough to make me want to play Final Fantasy forever!" Gameenabler "Final Fantasy A Realm Reborn is a unique game, but it does have its moments of feeling like another Final Fantasy game."

PocketGamer "The action RPG genre has become synonymous with RPGs since the first Final Fantasy. But while Final Fantasy has primarily taken the role of the big, epic games such as Chrono Trigger and Final Fantasy 9, A Realm Reborn is a refreshing and humbling contender that stands on its own." I'm using version 6.1, I searched but the people just say you can't or they have to work in this website. Thanks!
