currently uses Lightroom, says that he finds Photoshop a more powerful and complete program than Lightroom. Many of the top photo editors and retouchers have switched to Photoshop, partly because of its improved technology and the standardization of its file format. This tutorial demonstrates how to open a new document, apply a layer, edit a layer, make a selection, fix a perspective error, make a photo realistic crop, smooth a photo, add and change a color, and rotate a photograph. The first few steps of this tutorial assume an understanding of how to use the Photoshop user interface, which you can learn in other tutorials. You should have the latest version of Photoshop installed (CS3 or CS4). The program can be downloaded for free from Adobe's website, but only for the online version, not for the full-featured desktop version. Open the Photoshop CS5 Tutorial 1. Open New Documents in Photoshop Photoshop CS5 enables you to create an image in a range of sizes. You can change your settings to be able to resize the image after it's been loaded into the program. To open a new image in Photoshop, you must create it from scratch. You open a new image by opening the image window (Image → New), selecting a file, and then clicking Open. features that tend to slow down images are : Syncing embedded information with other applications Embedding information such as tags, custom formats, settings, presets, etc Loading information such as photos from the hard drive

These can be disabled by using the History panel and clicking the “Show Advanced Settings” in the upper left corner of the window. However, it is also a good idea to tune the processes manually. You can adjust the settings to your own preferences and remove any undesirable features as they might slow down Photoshop or Photoshop Elements.

Underneath the Advanced menu and “Show Advanced Settings” click on “Adjusting the Speed of Photoshop or Photoshop Elements”. You can choose “Enable D-speed” or “Disable D-speed” on each process that is used. Click on the menu bar and choose Image > Adjustment Layers > Reduce Noise. In the dialog box that pops up. You can adjust the “Contrast”, “Saturation” and “Highlights” sliders. Click the menu bar and choose File > Save. Click the Menu bar > Window > Preferences. The apolipoprotein A-I isotypes are not associated with incident coronary events in a large population-based cohort study. The association between apolipoprotein (apo) A-I isotypes and myocardial infarction (MI) risk has been suggested but not evaluated in a population-based sample. A total of 7,738 men and women (age  $54 \pm 9$  years, baseline CRP  $0.5 \pm 1.2$  mg/dl) without cardiovascular disease were followed for 5.6 years. ApoA-I isotypes were measured by an immunoassay using affinity chromatography and the apoA-I isoforms were classified into three groups (i.e., apoA-I<sub>2</sub>, 3, and 4). Cox regression analyses were performed with quartiles of CRP and apoA-I as risk factors for incidence of MI. Overall, 290 incident MIs were registered. No significant association between any of the apoA-I isotypes and incident MI was observed in either quartile analysis. In stratified analyses, the apoA-I<sub>4</sub> was significantly associated with a lower risk for incident MI only in women (multivariate adjusted HR 0.61, 95% CI 0.40-0.93). Lower levels of apoA-I are not associated with incident MI risk, yet the apoA-I<sub>4</sub> showed a significant inverse association with incident MI only in women. The clinical impact of this association is still unclear and requires further study.

The Queen's Speech should be used to bring Labour back into the UK, Jeremy Corbyn has said in a clear sign that he is preparing to lead a move to breakaway from the Conservatives. "I am going to go and meet the Queen. We have to use the moment, the great moment of Brexit, to focus on the future of our country," he told the Observer. "I believe one of the first things the

Government should be doing is using the Queen's Speech on 19 October to re-engage with the Labour Party on how to deliver a popular Brexit. "We are prepared to be ready for any eventuality, but there needs to be a serious negotiation, a negotiation which has to involve Labour to create that great Brexit deal which will be good for the UK." The jibes will not come as a surprise, coming from a leader who has so far raised the stakes for his relationship with Downing Street by refusing to back down in a

On October 25, 1996, Barbra Streisand released *What Do You Want From Me*. It was an underwhelming response, but Streisand isn't easily discouraged. She just hunkered down and waited for her next big hit. When it came, it was 1998's *A Love Like Ours*. It debuted at No. 1 with \$30.8 million in the U.S. and \$31.4 million overseas. It also gave Streisand her sixth consecutive No. 1 album. She'd never had a No. 1 album with the exception of *The Way We Were* album which had to be counted twice. *A Love Like Ours* was certified platinum in 14 countries and went on to sell 8.6 million copies worldwide. It holds the record for most No. 1 albums for a female artist. Streisand, celebrating her 75th birthday this week, will release her 18th studio album, *Walls*, on November 6. With her megahit 1999 single, "Evergreen," which reached No. 3, Streisand found a new way to reach fans: a music video before and after the song. "It's always been a challenge to look for a new way to reach an audience," Streisand told NPR earlier this year. "And what happened with this record was, first of all, we shot a music video for 'Evergreen' with songwriters and a composer in

the writing process to show the story in the video of the song. We had a multi-artistic idea in the making of the video and in the end it worked. We really became creatively free, and I think our fans were able to see the relationship between my collaborators and me.” Streisand added, “I really believe that you can’t write just for yourself. You’ve got to write for everybody else. It seems obvious, but it’s not all that easy. To take an idea and marry it with that idea that makes it appropriate for someone else. If you’re a songwriter and you’re not writing in that way, you’re not a songwriter.” Streisand, who is mother of three from her marriage to actor James Brolin, discussed her family, motherhood and her upcoming album. On her family: I have one
