Nucleolar mechanics in a *Chlamydomonas* with a deleted rRNA gene: parallel tracks model for ribosomal RNA biogenesis. To determine the mechanism of ribosomal RNA (rRNA) gene silencing at high frequencies, we constructed a strain of *Chlamydomonas reinhardtii* with a deleted rRNA gene (*rrn-1*) in a mutant background. Given that rRNA transcription is necessary for RNA polymerase (Pol) I-dependent initiation of 45S precursors, the cell line with the *rrn-1* deletion should display a 2N2K-2N2K rRNA gene dosage array. ### What's new in Elden Ring:

**I have sent the petition to the game's corporate office. The petition's text is (so far) as below. I feel that a lot of fans would also be eager to see the game being updated, so I am sharing this to give the petition weight. We are now in the 7th year of release, and this is the first time with so many players joining the petition. My English is not that great, so I sincerely apologize if there's any mistake. released in 2013 is still updating, despite being available on the market for 7 years. ● New Map Content Released ● Balanced Reward Scales Unveiled ● Updates to the Characters in Life Mode ● Increases in Item Drop Rate ● Update for the Explorers of the El Dorado Maps ● New Legal Drugs Added for the Beginner Dungeons ● Additional Dungeon Exhibits Added ● New Items Added to the Inventory ● Character Blood Slimes System Added ● New Battle Features ● Search for the Future ROST Awakening We, players of the online action RPG Lords of El Dorado, are waiting for the game's updated content to be released. We would like you to know that updating the game after seven years does not mean that the game is inferior in quality, but rather that we, as players, have been eagerly waiting for the update. Since several updates have since been made, it is impossible to apply the Character Award System to past updates or to apply the refreshed Item Drop Rate system to past updates. The Problem If an update is to be made, you can simply press a button to equip the updated contents and advance. However, you need to power up the game before the update in order to equip the contents. In order to power up the game with over seven years of accumulated gains, you need to rely on donations and regardless future prospects, and the marketing costs for updating the game are extremely high. We, players who have been waiting for the update for seven years, do not want to cancel a single day of play based on the contents of an update that we have played and gained from. We ask that you answer whether you would like to raise the price of the game by selling the current content with a newly updated version, or update and sell us the contents, while supplying us with the latest contents in order to secure us with the excitement of a
