I managed to do that using the two buttons at the bottom, but I don't know how to swipe and move the pictures. I will also add the user's score. My code so far:

```
import Foundation
import UIKit
class ViewController: UIViewController { //MARK: - View Life Cycle Functions
override func viewDidLoad() { super.viewDidLoad() // Do any additional setup after loading the view, typically from a nib. }
override func didReceiveMemoryWarning() { super.didReceiveMemoryWarning() // Dispose of any resources that can be recreated. }
//MARK: - UI Related Functions
override func touchesBegan(_ touches: Set, with event: UIEvent?) { // configure swipe detection let swipeLocation
```

Kenji YamamotoQ: Fetching data from API using MongoDB client I want to fetch data
from API. For that, the server is sending the following JSON as response: JSON response I
have tried the following code to fetch the data from API using MongoDB client: package
main import ("database/mongo" "fmt" "net/http" "strings" "time") func main() { //
Connect to the mongoDB c := mongo.NewClient("mongodb://localhost:27017/coll",
mongo.ConnectImmediately,) // Find the collection c.Database("test")
c.Cursor("myCur1") for { // Fetch a document doc, _ := c.Cursor("myCur1").Next() //
Convert the Document to a map[string]interface{} mapDoc := doc.ToMap() // Get the id
of the record id := mapDoc["_id"] // Read the date date := mapDoc["date"] // Read the
payload payload := mapDoc["payload"] // Read the channel ch :=
