The Haeundae District, which is made of eight islands covering a total of, 2,300 hectares, has successfully hosted the 2020 Asia-Pacific Triathlon and Swimming Championships and the 2016 Haeundae Eco-Marine Expo. Recently, together with Haeundae District Office and the support of Korean government, the Haeundae District has been running special community health programs since March for the children and the elderly, to ensure the safety of residents living in this area. In this regard, the Haeundae District proudly revealed a three-part tourist program, a startup that provides cultural and leisure facilities. This program offers a swimming program at the famous Haeundae Beach, and guides and entertainers for tourists and the elderly, that put in the effort to make it easy for the tourists to explore the sea, and thus the district rekindled its popularity as Haeundae. In addition, the district has renovated Haeundae Park and revitalized Haeundae Beach by removing sand-covered plants and demolishing a number of wooden fences, and installed the first ever Personal Ventilation Units to try and prevent the spread of the Corona 19 virus from the neighboring Incheon and Incheon National University (UNIB) and through the KFARTS Line. In this way, the Haeundae District has become a center of resistance against the virus that threatens us, and it is actively supplying the world with the Haeundae brand and the Haeundae spirit. It is our hope that the Haeundae district is widely recognized as a model that is respected by the world.
