Ableton Live 9 Trial Activation | Download Link. Get it on Google Play.. or other labels; All downloads are free, fully functional 30-day trial versions.Q: how can i check whether the name of a subroutine has changed? I am using delphi 2009. I am having a function which accesses all of the subroutines in the project. My function is like this: function GetSubroutine(Name : String) : String; begin Result := FindSubroutine(Name); if Result <> " then // My requirement, if the name of the subroutine has changed i need to // know that and do something end; Is this possible? I can not move my function to design time because this function is needed to access any of the subroutines in the project. A: You can use RTTI for that; see How to identify the current subroutine in Delphi? Phase I and pharmacokinetic studies of CBP 447 in combination with infusional 5-fluorourac
