-- Keymacro automatically converts a document into a database file which can be downloaded, and allows you to edit the content of the documents directly from a web browser. Convert PDF to database -- Every page of the PDF is stored as an independent field of the database. -- The fields of the database are text, links, form, images and other files. PDF to database is a free software with a limited number of features. You can select a file, choose an output directory and name a database file. The program has a good user interface, allows you to edit the selected file and allows you to print it. Nevertheless, you will need some technical know-how in order to get the most out of the program, and the fact that there is no help file available is a drawback. PDF to database doesn't support multiple conversions or batch processing. Plus, the download of the file is time consuming, and it has been known to produce errors. The quality of the text and images is preserved at a good level, and we think that the price is fair. PDF to Database is a decent tool for conversions, but if you need more features, you should check out its pricier counterparts. KEYMACRO Features: -- Convert PDF to database. -- Each page of the PDF is stored as an independent field of the database. -- The fields of the database are text, links, form, images and other files. -- Supports batch processing. -- Allows you to edit the selected file. -- Prints the file. -- Allows you to change the password. -- Generates HTML metadata. -- Insert page breaks. -- Extract images (to the JPG extension). --

Supports Unicode encoding. -- Supports ANSI encoding. -- Adjusts page margins. -- Displays a table of the PDF content. PDF to HTML is a simple tool for converting a PDF document into a plain HTML document. The application lets you import a file, choose an output destination, and a page range. The program only allows you to either open the file in the web browser or generate a HTML document with the page range specified. The interface of PDF to HTML is standard with a few additional windows and a right-click context menu. In case of conversion errors or problems with PDF formatting, you can see the conversion process in the preview panel. The time needed for converting a PDF file from the available options varies from a few seconds to more than 2edc1e01e8

PDF to Text is a small software application whose purpose is to help you convert PDF files to plain text file format using batch processing operations. User-friendly layout The tool implements an

intuitive behavior, so even less experienced users can easily discover and tweak its functions. Files can be added in the working environment using the built-in browse button or drag-and-drop support. What's more, you can view information about each PDF, such as file path, size, and status, remove the selected items from the lists, and clear the entire workspace with just one click. Conversion options PDF to Text gives you the possibility to save the converted items to the source folder or specify a user-defined saving directory. It is important to mention that the program is not able to process password-protected PDF files. Additionally, the application asks you if you want to check out the output directory at the end of the task. It provides support for batch operations, which means you can process multiple files at the same time. Performance Since it doesn't require much computer knowledge to set up the dedicated parameters, you can learn to master the process in no time. During our testing we have noticed that PDF to Text carries out a task quickly and provides very good output results. It doesn't eat up a lot of CPU and memory, so the overall performance of the computer is not hampered. Bottom line All things considered, PDF to Text offers a straightforward software solution and comes bundled with basic features for helping you convert PDF files to plain text file format using batch processing operations.

[An autopsy case of primary malignant lymphoma (author's transl)]. The autopsy case of a 61-year-old man, who was suspected of having primary malignant lymphoma in the right lung, was reported. The patient was admitted to the hospital with a high fever and pain in the right upper chest, where lymph nodes in the right axillary region were palpable. A computed tomographic scan of the chest revealed a mass in the lower lobe of the right lung. At autopsy, a tumor about 9 cm in diameter had developed in the right lung and also in the mediastinal lymph nodes. Histological examination of the tumor in the right lung showed a proliferation of small, medium, and large cells with relatively uniform nuclei and an indistinct nucleolus. Ultrastructural observation showed fine granular chromatin in the nucleus and fibrillar components with desmosomes in the cytoplasm of the cells. The tumor in the mediastinal lymph nodes was also composed of small, medium, and large cells with uniform nuclei, and was diagnosed as lymphocytic lymphoma of the diffuse type. The lymphoma in the right lung was considered to be diffuse-type centrocytic lymphoma. In addition, numerous tiny nodular tumorlets were observed in the connective tissues of the right lung. These
