The newly revamped Adobe Camera Raw 8.3 boasts a ton of new features, including the ability to browse RAW files natively within Photoshop, RAW export for X-Rite Proshow Gold Stage, and workflow-based support for DNG, NEF, TIFF, and other file formats. In addition to fixing the most glaring issues with the previously-stable Camera Raw application, Adobe has enhanced the application's basic color controls, added some new ones, and tweaked the layout and its functionality to provide better access to the most important controls. For shooting in raw mode, Adobe has improved ACR's handling of the stacking of overlapping exposures, which previously had caused some problems. The new version also includes faster color adjustment and manipulation controls, more intuitive workflow and image-editing features, and fixes for a long list of bugs. Adobe has given ACR update a "major overhaul" to improve the editing workflow through the addition of new and improved image manipulation features, including merge, paint, crop, remove red-eye, and more. One of the more intriguing features of the new Adobe Photoshop CC is the new AI that powers a ton of Photoshop's key features. The new Power of AI adds additional layers of intelligence to Photoshop CC. Adobe works with thousands of AI-enabled content and AI-powered content players, both on the web (via the Adobe Experience Cloud) and on mobile devices, which now work with Photoshop CC. The company built over 10,000 AI-powered objects, including brushes and layers.

However, if you use Photoshop in the graphical sense, you may want to avoid this process if you're working on a website. If you are going to be installing Photoshop at your own website, make sure you are prepared for the possibility that things will go wrong. There is a high chance of doing that from using default settings. You might want to take some extra precautions including, if possible, saving to a solid website, not using Photoshop as administrator. As long as you keep in mind these precautions, you should have a much more accurate installation than you would on Windows or Mac. In this step, I am installing the software on a Windows 10 host. If you are using Windows 7 or older, you should follow the instructions before starting the install. There are 3 plans you can choose from.
